Solana Integration

Log Energy Usage in BlockChain

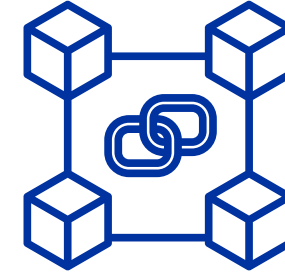

Incentive Mechanism

Lightly

Why Solana

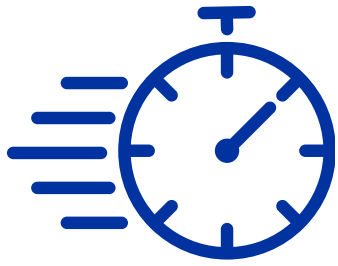

Immutable Decentralized Ledger

**SPL Token Standards for Staking
and Rewards**

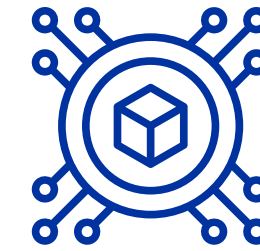

Value Proposition

Advanced monitoring .

**Detailed analytics and
visualizations.**

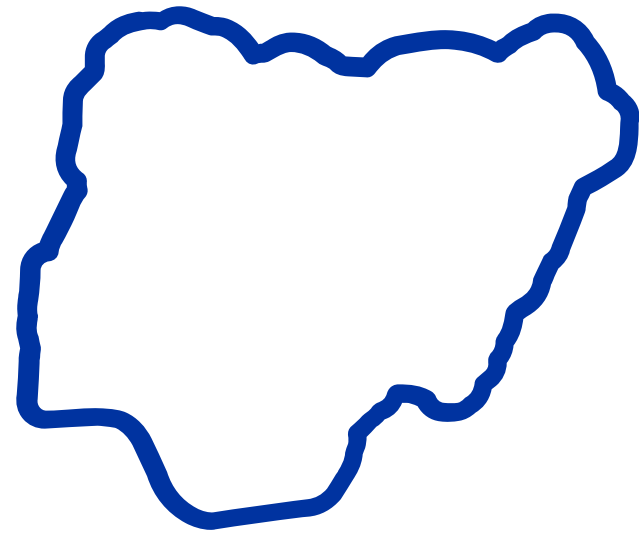

Control of appliances remotely.

Market Size

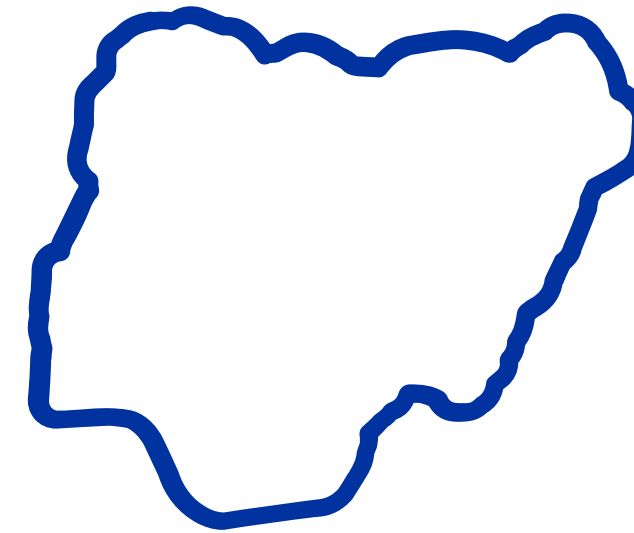

**Utility Companies on
Energy Theft**

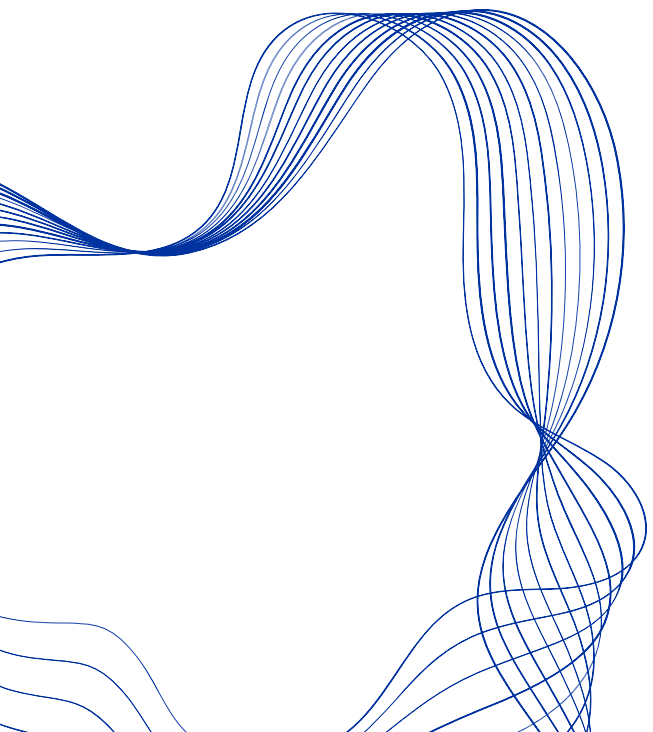

40-60% revenue lost

**Consumers on Estimated
Billing**

Six Million Nigerians

Business Model

Sales and Installation fees

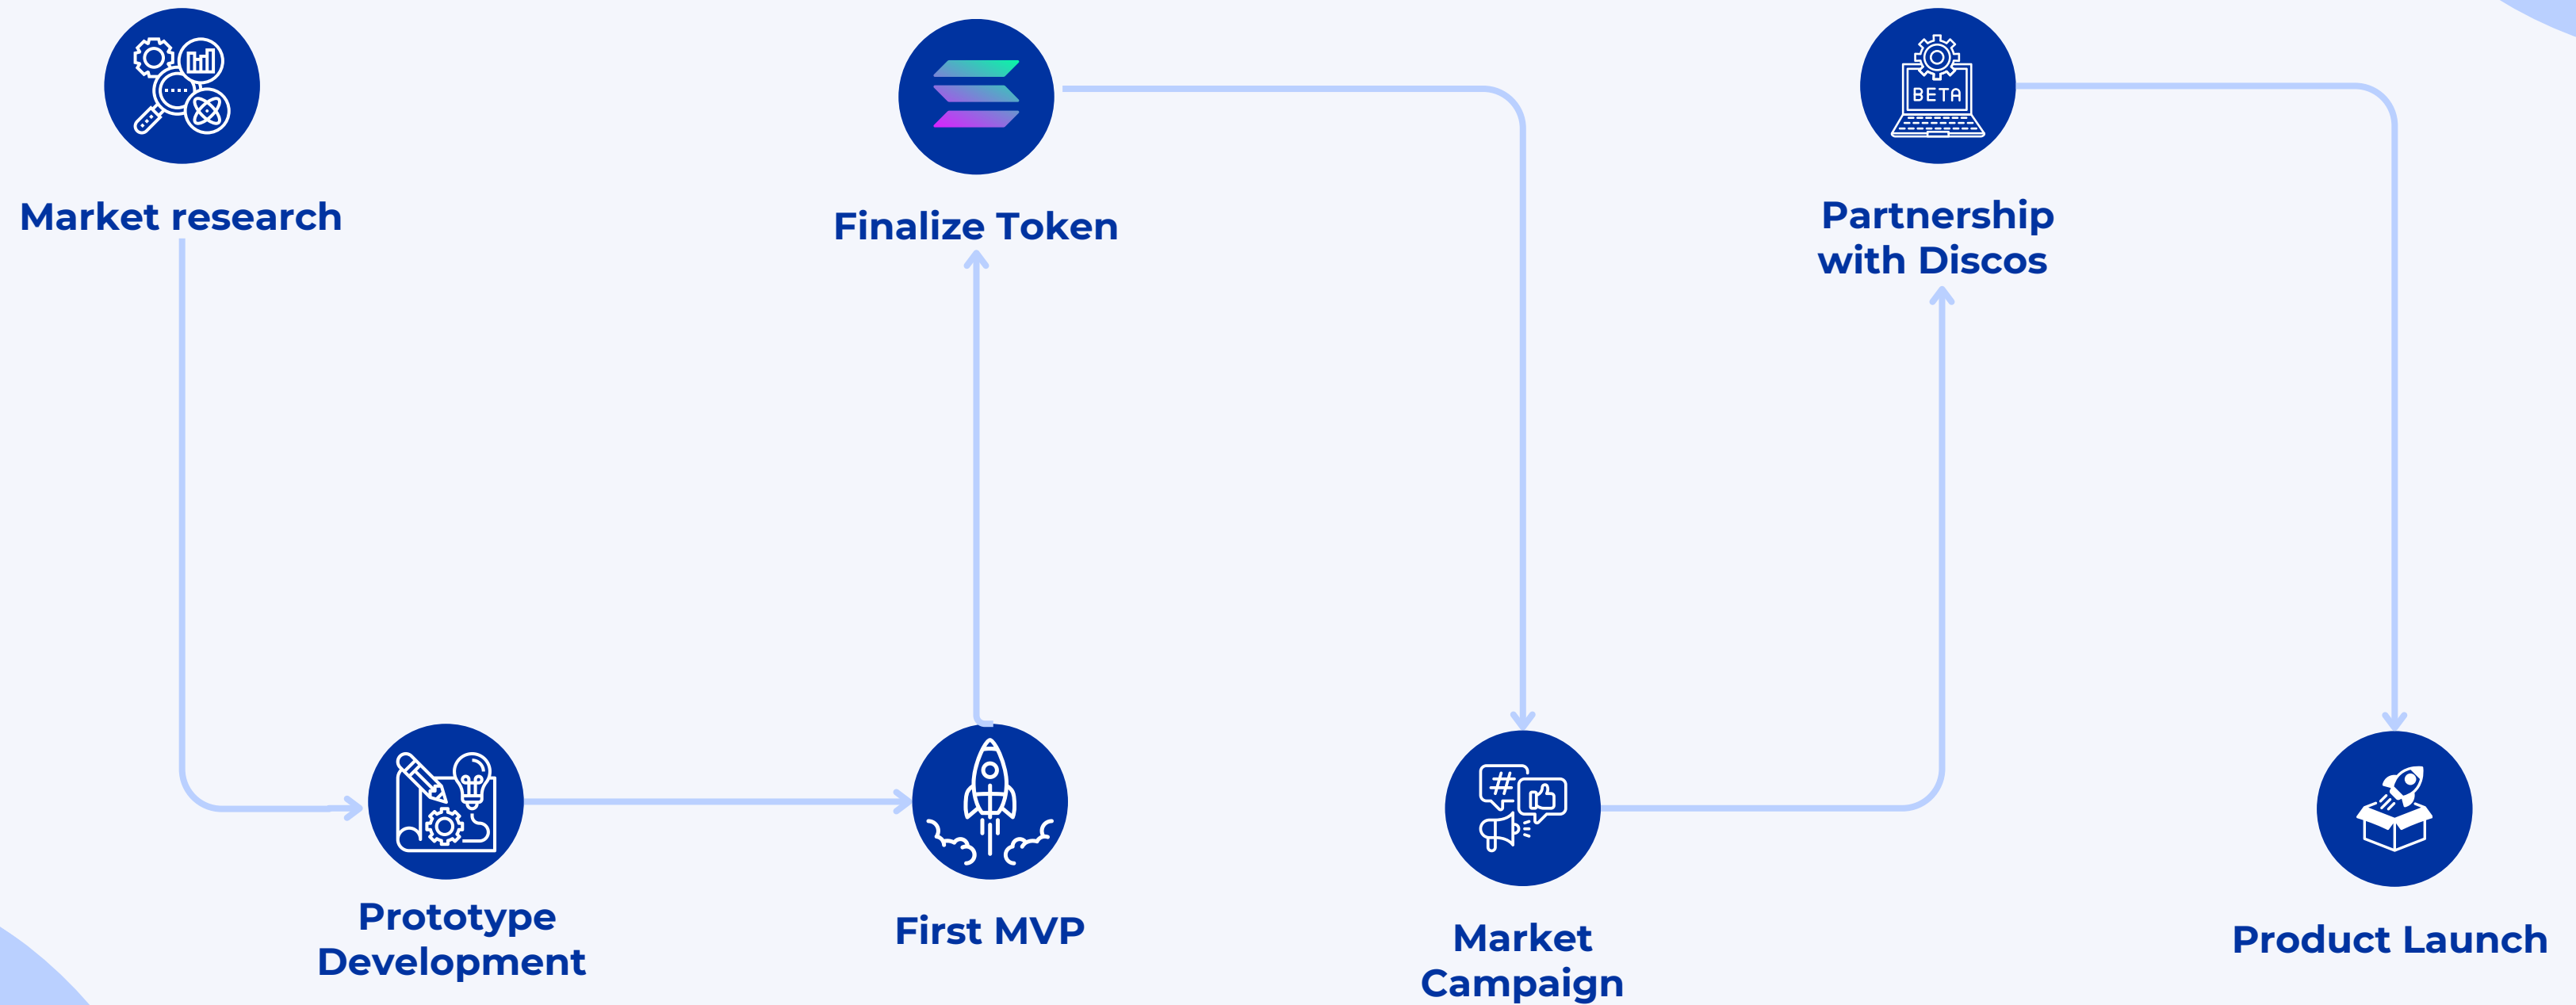

Subscription Model

Data Monetization

Traction and Roadmap

Competitive Analysis

	Real-Time Energy Monitoring	Convenience & Control	Reward System for Users
